PROFESSIONAL SUMMARY

Motivated and results-driven IT graduate with a strong foundation in networking, computer hardware, and frontend web development. Proficient in configuring routers and access points, assembling and troubleshooting desktop computers, and building responsive websites using HTML, CSS, and JavaScript. Adapted at using Git and GitHub for version control, and well-versed in command-line operations. Seeking an opportunity in a forward-thinking technology environment to apply my technical skills and passion for innovation. I have attached other documents to support my application.

EDUCATION

University Education

I did Bachelor of Science in Computer Science in Presbyterian University of East Africa (PUEA) from September 2022 until April 2025. I highly enjoyed Programming classes.

Secondary Education

I studied in Kanyakine High School from January 2018 until April 2022.

I did my Kenya Certificate of Secondary Education (KCSE) in the year 2022 April and I scored B Plain of 60 Points. Notably I scored A Plain in Mathematics.

Primary Education

I did my Kenya Certificate of Primary Education (KCPE) in the year 2017 and scored 312 Marks. Notably I scored A Plain in Mathematics.

Other Certification

I did driving in Africana Driving School Kikuyu branch for the class of Light Manual Vehicles. Alongside I also got certified in Defensive Driving and First Aid course.

INDUSTRIAL ATTACHMENT

I did attachment Alliance High School which is located in Thoghoto in PCEA Mission Area in Kikuyu Constituency. I was attached in their ICT Department. I commenced the attachment on May 5th, 2025 and ended on July 31st, 2025.

Key Responsibilities:

- Terminated and tested Ethernet cables (RJ45) for LAN connections
- Configured routers, access points, and Ubiquiti NanoStations
- Installed and maintained CCTV cameras
- Diagnosed and repaired desktop computers (RAM, hard disks, VGA, OS)
- Assembled computer systems and resolved over 80% of hardware issues independently
- Performed data entry tasks and managed student user accounts in School Management Platform.
- Applied Windows CMD for troubleshooting and configuration tasks

Key Achievements:

- Successfully enhanced network connectivity across various school departments
- Independently resolved numerous desktop and network issues with high user satisfaction

TECHNICAL SKILLS

Networking: Cable termination, router configuration and setup, basic IP configuration

Computer Hardware: Troubleshooting, component replacement, system assembly

I can disassemble and assemble system Unit on my own. I can also enable two computers to communicate through the use of Ethernet cable and configuration.

Frontend Development

I have sufficient skills in HTML, CSS and JavaScript. I have done numerous projects using these languages

Version Control

I have sufficient skills Git, GitHub, I have used these skills to push most of my personal projects in GitHub.

Operating Systems

I have sufficient skills in using Windows Operating System, Windows CMD.

Office Applications

I have basic skills in Microsoft Excel, Access, Word and Power Point.

PROJECTS

- I have developed several personal website projects using HTML, CSS, and JavaScript, demonstrating responsive design and clean User Interface layout.

- I have also participated in practical setup of network infrastructure and system maintenance during attachment period.

LANGUAGES

English – Fluent

Kiswahili – Fluent

Kimeru – Fluent

INTERESTS

- Physical fitness and strength training, I normally engage in Weight training, body workouts, cardio and flexibility training to maintain physical fitness, this type of training is referred to as Hybrid Athlete Training.
- Exploring emerging technologies in networking and web development
